

“Working with Jordan and Restore London has been exceptional. The works carried out have been to the highest standards and the process has been stress free.”

Tom Kingdon, Theatre Manager – The Criterion

Scope of Works

Restore London were appointed to carry out remedial works to the Grade II* Criterion Theatre canopy in the heart of Piccadilly Circus. Located on a busy pedestrian area, access scaffolding around the canopy was constructed out of hours to minimise risk & inconvenience to the public. Existing lead to the canopy was stripped and renewed in Code 6 leadwork, including new flashings. Our team decorated all areas, including the surrounding façade, as well as restoration and decoration works to the ornate gold crest at the centre of the canopy structure. The team also restored the metal work, installing metal roses which were cast and fixed (which had been missing prior to the works). Our works were completed to the highest quality, safely and on time ready for the reopening of the theatre, much to the delight of the Theatre Board of Directors.

Project Name:	The Criterion Theatre Canopy
Location:	Piccadilly
Client:	The Criterion Theatre
Principal Contractor:	Restore London
Duration:	3 Weeks
Completion Date:	Jan 2024
Value:	£45K
